## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11, drawn to a method of creating a transgenic plant comprising an *Alfin1* transgene.

Group II, claim(s) 13, drawn to an Alfalfa *MsPRP2* promoter.

Group III, claim 12, drawn to a method of using *Alfin1* protein binding sequences as concatamers.

The claims are not linked by a special technical feature because the invention of Group I does not constitute an advance over the prior art. A method of creating a transgenic plant comprising an *Alfin1* transgene is taught by Winicov et al (1997, Acta Physiologiae Plantarum 19(4):435-449) who teach transforming plants with the *Alfin1* transgene. Hence, there is no special technical feature that links the method of transforming a plant with *Alfin1* of Group I to the promoter sequence of Group II or to the protein binding sequences of Group III. Furthermore, the promoter of Group II is distinct from the protein binding sequences of Group III.

Art Unit: 1638

Because these inventions are distinct for the reasons given above and the search required for the individual Groups is distinct from the other, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, fields of search, and classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stuart Baum whose telephone number is (703) 305-6997. The examiner can normally be reached on Monday-Friday 8:30AM – 5:00PM.
